Peak travel to our venue **£1.70**.

Oyster card / Contactless payment for zones 1-3 costs is a maximum **£40.00 / week**.

If this does not suit your needs, you can try [London Homestays](#) or [The Londonist](#), both of which are British Council accredited. In the past, we have found they had very limited availability for one and two-week homestays and generally offered student residences. Otherwise, you may try websites such as [Homestay.com](#), [AirBnb](#) and [Student.com](#). Prices will vary from £180-£450/week including fees.

Course Outline

Most teachers will write for their class at some point, whether it's a vocabulary quiz or a discussion task, a lesson based around an authentic text or even a whole course. Guided by Hugh and Andrew, with their vast experience in materials writing and publishing, this course will help you produce better materials. We consider the principles underlying materials and how materials will be used in class by you and other teachers and provide workshops where you bring your own material to get advice on and develop. We expect you to bring your own device to work on these materials, but please contact us if this is a problem. We also believe that the process of writing materials will make you a stronger teacher.

Content

All participants will receive a questionnaire before the course to explain their teaching background and interests regarding the course. Based on this, there may be some variations to content and timetable (see below)

Outcomes

At the end of the course, you will:

- leave with improved materials you bought for your class
- be clearer about your own principles underlying your teaching and materials writing
- be better able to think about how your material fits with outcomes
- take more users more into account when producing material
- have an insight into the professional publishing process.

Check it's the course for you:

- I am a teacher of English with at least a B2+ level and have tried writing material.
- I have some specific material I want to share, get advice on and develop.
- I want to discuss some theory of language and language learning to help develop my material.

If it's not for you:

- I am specifically interested in developing test materials – try **Better Testing and Assessment . . .** or why not combine the two courses and save money?
- I want to develop various pieces of material for my organisation, organise group training or a bespoke course – **contact Andrew Walkley** on andrew@lexicallab.com.
